Aims and Objectives

Aims

- To encourage patients to engage in their own healthcare.
- To ensure that patients are more involved in decisions about the range and quality of services provided by their GP surgery and, over time, commissioned by their practice.

Objectives

- To have knowledge on issues that impact on health
- Sharing experience & feeding back
- Identifying areas with scope for improvement
- Highlighting excellence
- Turning knowledge into action
- Supporting change
- Bringing peers together for mutual encouragement
- Promoting self-management
- Linking into the community
